Shareholders of the Company Are Justly Indignant.

AND NO CAVE-IN HAS OCCUR-RED IN ITS WORKINGS.

The Daisy Mill-Rippeto's Opinion of the West Dip and Tintic Mines-In the La Sals-Home Reduction Works Is the Order of the Day There-Mining Stocks Inactive-Quotations Well Maintrined, But Transfers Limited-The Cld Deer Trail-Mountain City Mines-City Creek Gold-Incorporation of the Bromide-Ore and Bullion-Silver and Lead-Mining Notes and Personals.

Mammoth stockholders are justly indignant over the misleading statements regarding the condition of the Mammoth mine which were put in circulation last Saturday, as these reports were false in every particular.

While the effects of the rumor will not be far-reaching, still, the reports put in circulation that the Mammoth scale to a number of shareholders, and but for the prompt denial of the false statements by the officers of the com-pany, many might have lost heavily by selling out at ruinous force. mine was caving badly gave quite

by selling out at ruinous figures.

As soon as the reports reached the ears of the company in this city the telephone was at once pressed into service and the superintendent at the mine was asked as to the truth of the rumor, the answer being that there was nothing in II and that it was nothing more than conjurings of a diseased mind or the deliberate falsehood of someone who wished to infure the com-

someone who wished to injure the company or to break down the stock for speculative purposes.

As it happened, Ralph Guthrie was at the Mammoth last Saturday and made a thorough inspection of this magnificent property and he was at Superintendent Earl's elbow when the inquiry regarding the reported cave-in was received by that gentleman, and he heard the answer in the negative given to the officers of the company.

Mr. Guthrie, in his report of the mine, stated that it was in splendid condition, with Immense bodies of good ore in every portion of the property.

ore in every portion of the property, while, if there had been a cave-in he would have known it, as he was examining the workings of the mine at the time the catastrophe was alleged have occurred.

Mr. J. A. Cunningham, who went out to the mine Sunday, also confirms, from its personal knowledge, the statement hat no cave in has taken place, and he adds that the mine is looking well and is in excellent physical condition. He denies, however, that he has been selling stock, according to another report put into circulation last Saturday. and says that he has not sold a share of Mammoth stock for years.

IN THE LA SALS. Home Reduction Works Is the Order

of the Day There. The Times of Moab, in speaking of the La Sal Mountain camps, says:

O. D. Loutzenheiser has been laid up

O. D. Loutzenheiser has been laid up for some time at Pinhook with a severe attack of rheumatism.

Arrangements are about perfected to put in a five-stamp mill in Miner basin. This will start on ore from a claim in which Mr. Loftus is interested.

Messys. Loftus, Dillon, McMahon, Fowler, Wilson, McGraw and Swagger, prospectors working on the north division of the La Sais, came down to Moab to celebrate Pioneer day, eat fruit and get thawed out.

fruit and get thawed out. fruit and get thawed out.

in a few days.

The Hepburn arrasta at Miners basin cleaned up \$36 in gold on the first
run. It was found that the bettom
leaked badly and that the values had
been washed through. Some time has
been spent in putting this in shape and
it is again running night and day. The
changes in construction are expected
to show in the returns from the next
clean-up.

to show in the returns from the next clean-up.

D. B. Wilson has bought out the interest of Brotosky and Schmit in the Buckhorn group of placer claims on the Delores and has already completed arrangements for working them. Lumber for a flume has been ordered from Grand Junction. Dan Farrell of Teluride, an experienced placer miner, will have charge of the work. Four men are on the ground and others will men are on the ground and others will

be added.

Messrs, Clark, Case, McElroy and the hole delegation of those prospecting Miners creek in the middle division of the La Sals were down for Pioneers of the La Sais were down for Pioneers day. The section they are interested has not attracted as yet as much at-tention as some other parts of the mountains, but the latest returns from assays on the large bodies in sight indicates that it is sure to take a jump to the front in the next few weeks. There are large bodies of free milling ore here that averages better than 315 and is improving with every foot sunk. Hon. John H. Shafer, who has visited nearly all parts of the mountains this season, says he likes, the appearance of this camp as well as any part of the mountains, he has made a location there and will start development work

MERCUR MINING MATTERS. New Mill at the Mercur Not Yet a Certainty.

Mercur, Aug. 1.-The report that plans for a 300 ton mill to be erected at the Mercur mine, were completed and in the hands of contractors, was not only premature, but might be almost said to be without foundation in fact. That the directors have for years been considering the matter, is a well known fact and that such a mill will be built in the future is almost settled, but when it is built it will be of much larger proportions than 300 tons. That such a thing has been contemplated is shown by the fact that more than a year ago, a tunnel was rin under the Ruby waste dump which was called the "mill tunnel," and it was thought at that time that a mill might be built in the hollow below the

Developments since that time have Developments since that time have caused the abandonment of the militunnel, and it has caved in in places. The best place probably for a mili sight (everything considered), is in the Mattie guich, but before such an undertaking could be made to pay a great deal of work in opening up the ground would be necessary. At present there is no connection made be-

made than was possible under the crude working of five years ago. With a more economical method of handling the ore it is now possible at the Geyser-Marion and Sacramento, to treat \$3 ore at a profit, and with increased tonnage a margin can be made on even less valuable ore. PROPERTY IS ALL RIGHT

a margin can be made on even less valuable ore.

In building mills in the camp at the present time location is well consider-ed, with regard to having sufficient dumping ground, and also in such a dumping ground, and also in such a position that the ore does not require to be handled more than once or twice at the most. At Manning the disposition of the tailings is quite an item in the expense account, the Geyser-Marion is badly cramped for room, and it looks today as if the company would have to purchase more ground, or rather purchase the buildings and improvements on their own ground, fro mithe settlers. The Sacramento is reaching their boundary line ground, fro mine settlers. The Sacra-mento is reaching their boundary line very rapidly and they will eventually have to move their mill in order to obtain the necessary dumping ground. On the other hand, the La Cigale, Daisy, Chloride Point, Overland and Golden Gate mills have been built in such locations as remove all prospective

By opening large cuts in the mines By opening large cuts in the mines in such a manner as will permit fewer men to produce the needs of a mill, and making the tonnage larger ore of a very low grade can be handled and it is to meet this necessity, that plans for a new mill are being considered. It is only a question of time when such a move will be made by the Mercur company and the time is probably not far off, but nothing definite has as yet been settled in relation to the matter. been settled in relation to the matter.

MINING STOCKS INACTIVE.

Quotations Well Maintained, But

Transfers Rather Limited. The mining share market was rather quiet yesterday and transfers were there few, although quotations were well maintained on the floor of the exchange.

Some attention was paid to Centen-

nial-Eureka, ten share lots being wanted at \$22.50. Geyser-Marion was the only active stock on the board, 100 shares changing hands at 75½ cents, while a block of 300 found a buyer at half a cent less. Mammoth made up lest haff a cent less. Mammoth made up-lost ground rapidly and was strong at the close. Mercur also braced up in good shape and was in good demand at \$7.25 with \$7.45 asked. Northern Light-was slumpy in the bldding. Sacramen-to disclosed considerable strength and an upward tendency. Utah was firmly an upward tendency. Utah was firmly held but was somewhat weak in the

bidding.

In the unlisted stocks Chloride Point chronicled still further advances and at the close was quoted at 97 cents bid and \$1.02½ asked. Swanses maintained former figures and was a fa while South Swansea made gains. favorite

Dividend Paying and Investment Mining Stocks.

W. E. HUBBARD & CO., TEL. 505. 15 W. 2d So. St. THE DAISY MILL.

H. D. Rippeto's Opinion of the West

Dip and Tintic Mines. H. D. Rippeto, the veteran mining

operator and expert, who has recently returned from an inspection of the Daisy mine and mill on the west dip, in Camp Floyd district, speaks in the highest terms of this property and the gem of a mill that is now treating

Daisy gold ores.

The Daisy mine, according to Mr.
Rippeto, is the making of a bonanza,
as in its workings great measures of good ore are blocked out, while the mineral zones grow in size as develop-ment work progresses. The new mill, in Mr. Rippeto's esti-mation, is a model of neatness and a

triumph of construction, the mechanism being complete in every detail, while the ore treatment has proven to be a complete success; and in making this statement Mr. Rippeto but voices

the opinion of many who have also visited the mine and mill. Mr. Rippeto has also visited Tintic mines of late, and he says that some great mines will yet be disclosed in the Silver City end of the district, as this is a section of country that is simply immense in its mineral deposi-tions, and Mr. Rippeto is of the opinion tions, and Mr. Rippeto is of the opinion that Tintic will y-t prove to be one of the greatest camps in the west, backing up this opinion by pointing to the depth gained in the operation of a number of the mines in the district; the fact that with depth the ore bodies grow larger and richer; and he clinches his arguments by pointing out that the mines are dry and clear of water, while almost every facility is offered in the matter of railroads and other conveniences.

The Old Deer Trail.

The Old Deer Trail.

The Old Deer Trail.

The best place probably for a mill sight (everything considered), is in the Mattle guich, but before such an undertaking could be made to pay a great deal of work in opaning up the ground would be necessary. At present there is no connection made between the new strike and the old workings, and without that it would be necessary to transport the ore around the hill, and cause its being handled a number of times, and thus destroy the object of the building, economy in the handling and treatment of the working of the mine, up to the present time, large bodies of ore have been encountered, carrying values as low as 32 per ton. This ore is of too low a grade to permit of its being handled a rande to permit of its being handled.

at a profit, when transportation to Manning was considered, and it was left standing.

Experience has caused many changes in the preparation and treatment of the ore, and fine crushing is now considered a requisite to successful leaching, and a much larger saving is being made than was possible under the mine where similar begies of mineral are exposed.

are exposed.

In making this upraise, the owners of the Webster have all of 500 feet of good stoping ground to the surface, white in the floor of the tunnel the ore body is ten feet wide, and is still going door.

nearly 400 feet. The rock, which has been exceedingly hard, is getting much softer, and it is expected that the velo will be reached in the next 30 days. At the Walker the owners are stoping out a carload of high grade ore, which will be shipped.

At the Standard the vein in the face of the tunnel has opened out to four feet of ore, much of which is high grade.

The district suffers for the want of reduction works. The Walker, Standard, North Star, Stella, Argenta and others have an abundarce of milling ore exposed to keep a small plant at work continuously.

The McGinnes boys have recently uncovered a three-foot vein of copper cre

covered a three-foot vein of copper ore on Mill creek, which shows by assays an average of 22 per cent copper, and \$2 gold. Mike Enright is doing a work on his claims near the McDonald, 12 miles east of town, Mr. J. A. Robin-son of New Mexico is now making an examination of this property.

City Creek Gold.

Captain F. M. Bishop, the well known | W assayer, has just made a test of ore from the Washington mine, up City Creek canyon, that showed surprising gold and silver values. The Washington is located in the

canyon, only two miles from Easte Gate, and was found by means of a mineral indicator in the hands of one of the employees of a valley smelter, and so confident is he that a big mine and so confident is he that a big mine is to be found at the spot indicated by his divining rod, that he is sinking the shaft on the ground for the company, and taking pay for the work in stock; and that he is not far off in his conclusions is verified by the fact that the ore assayed by Captain Blabop showed values of \$40 ounces in gold and 237 ounces in silver to the ton, or \$17,505.43, which equals the most flowery reports yet received from the Klohdike region.

How much of this rock there is in sight was not reported, but the com-pany is well satisfied, and work in the development of the claim will be more vigorously pushed from now on.

The Cannon to Be Worked.

Mercur, Aug. 1 .- Parties have been at the Cannon this week examining it in every part of the workings, and it is thought that something will be done with the property before long. It has always appeared strange that, aways appeared strange that, sur-rounded as it is with large bodies of ore, the search has been unsuccessful. The cause has probably been the in-experience of the men in charge, most of the work being done at a time when the formation of the district was but little understood. That the property will eventually become one of the producers of the camp is believed generally by the mining men here.

Incorporation of the Bromide. The Bromide Mining & Milling company vas incorporated yesterday in the office was incorporated yesterday in the office of the secretary of state with a capital stack of \$100,000, to develop mining prop-erty on the southern slope of Douglass mountain, Routt county, Colo. The incor-porators and shareholders are residents of Lintah county, Utah. S. D. Colton is pres-ident S. M. Browne, vice president; R. S. Collett, treasurer and secretary, and S. L. Colton and John Jarvie are the other directors.

Silver and Lead.

The silver and lead quotations yesterday were as follows: Bar sliver, 58 9-16 cents. Lead, brokers', \$1.80. Copper, casting, 10% cents.

Ore and Bullion.

were as follows: McCornick & Co., ores, \$3,000; bullion,

T. R. Jones & Co., bullion, \$19,609. National Bank of the Republic, gold bar, Bamberger & McMillan, ores, \$1,575.

Mining Notes and Personals.

The Swanses will pay its regular \$5,000 dividend on the 10th.

Twenty-three of the members of the stock exchange have paid their \$50 war tax, and by so doing have helped swell the famd with which to push the war against Spain.

Charlie Markland of the Conklin samp-ng works, has returned from his outing p Hobble creek, above Springville, and e reports having had a most piesaant

The Centennial-Eureka marketed two carloads of ore yesterday, which were sold on control assays showing 17 per cent copper besides the usual silver and gold

Herman Hill handled the gavel as caller or the mining exchange yesterday during he absence of Secretary Hudson, and se did full justice to the occasion, making ome fun for the brokers during the call. It was reported yesterday that Messrs, Kelth and Kearns of Park City had taken p their option on a control of the stock of he Valeo company, or 119,000, it being un-ierstood that the purchase price was 11 ents a share.

B. F. Redman left yesterday for Tusca-rora, Nev., for the purpose of making arrangements for the hauling of the ma-terial to be used in the construction of the new Dexter electric power plant on Thicken creek.

Another contract has been let in the de-velopment of the Hardscrabble mine over the divide from the head 61 City creek, and the company is considering the feas-ibility of the erection of a concentrating plant this fall.

plant this fall.

The effort last Saturday to break Mammoth was a signal failure, as there was no truth whatever in the reports in circulation to the effect that a had cave-in had occurred at the mine, and yesterday the stock moved up rapidly to the position occupied before the detrogatory rumors were circulated.

were circulated.

John A. Kirby, the efficient superintendent of the Bullion-Beck, who was in the city yesterday, states that the main shaft has reached the 1,200 level, where a station has been cut and a drift started to the north to connect with the ore zones its closed by the winze from the upper evels, and he adds that the mine is looking well.

ing well.

It is given out that "mum" is the word now in the development of the Northern Light, and that in the running of the new tunnel from the Hercules side of the mountain the greatest precaution is taken to prevent any information from being given out regarding developments being made, each employee virtually having his lips under lock and key, the inference being to outsiders that a strike has been made.

says that Sam Pollock reports a new strike in the Hercules, the new find being made in sinking from the drift from the winse, the streak of one operating values in silver ranging from 20 to 40 ounces silver and well in gold, but as yet the extent of the deposit has not been determined.

mined.

Hon, M. M. Miller, vice president of the National Benk of Veiageo, Texas, is in the city with his family and is so well pleased with Sait Lake and Utah climate that he is thinking of locating here. Mr. Miller is an old time friend of Colonel H. L. Pickett, and it is his intention to make a thorough inspection of the mining camps of the state and an investigation into the splendid mineral resources of this pertion of the Lord's footstool.

The Herald is reliably informed that

Mountain City Mines.

Times-Review, Tuscarora, Nev.: Late reports from the Van Duzer creek placers indicate that the clean-up now in progress will exceed that of any previous year in the history of the district. It is said that the cutture of Hora's claim will cover all operating expenses for the year and the entire purchase price of the property.

The Herald is reliably informed that the Grand Central company of Tintie will not increase its dividend this month, but that it will continue to build up its reserve. The company is making arrangements for the erection of a steam hoist at its mine, and it is said that this will be the finest plant of the kind in this great camp, and, what is more, the company has now more than enough of a reserve fund in its treasury for the erection of the plant.

Record, Ploche, Nev.: The method of the plant.

NEWS OF THE WEST.

In Idaho politics is taking more atten-T. W. Brewer, an old time resident of

tion than the war.

T. W. Brewer, an old time resident of the Springs, and one of the earliest pioneers of Colorado, is dead.

Word has just been received from Lastyega, N. M., announcing the death of Frank Bingham, one of the oldest pioneers of Pueblo.

This way home he kept Bethers hand-cuffed, which the fugitive did not like, and solicited the sheriff to let him travel free handed. He is a large built feelow, weighing over 250 bounnes. This week a serious forest fire broke out at the base of Green mountain, half a mile above the Chantangua grounds, near Boulder, Colo. A hot wind fanned the flames almost beyond control.

A timber fire on Pass creek, Wyo., this week burned over a tract a mile while and five miles long. The fire was started in Cedar pass. It is possible that it was started by some careiess sheepherder. The fire went out when it reached the quaking asp, which will not burn. A large amount of fine timber was destroyed.

Some V. of the magnitude of the wood busines Y and about our sister city of Casper, says the Doughs (Wyo.) Buaget, may be gathered from the fact that up to the 20th linst. Lis cars, averaging 21,000 pounds each, had been shipped from there, with probably a half milion pounds yet to be loaded. This means a heap of money with wool at B cents.

Dlamondville, sear Kemmerer, Wyo., is bound to boom. Marcus Daiy is in full possession of the mines and has commenced operations on a grand scale. A large brick hotel will at once be creeted and company houses will be constructed right along.

Word comes from Lander, Wyo. that E. B. Burmagh, an old man 56 years of 4ge drowned himself the other day in the Little Wind liver, three or four miles below Fort Washakke, on the Shoahone Indian reservation.

Miss Sceorgia Johnson has been admitted to practice in the conference of the surface of the prophetic calling of Joseph Smith, the divine authenticity of t

reservation.

Miss Georgia Johnson has been admitted to practice in the supreme court of Newada. She is the third lady to have passed the examination in Newada, and her many friends are delighted, says the Carson News.

News.

Silver State: It is estimated that in Humboldt county, Nev., alone there is a half million acres of land that could be reclaimed by building storage reservoirs. This would support a population several times that of the entire state at the present time. By all means let nothing stand in the way of building the storage reservoirs.

NEWS FROM OVER THE STATE

SHERIFF MURDOCK FOUND HIS MAN NEAR ASHLEY.

Returned as Highly Elated as He Was Chagrined Upon the Prison-er's Escape Three Weeks Ago.

Heber, Aug. 1 .- Sheriff Murdock arrived home from the Ashley country Saturday afternoon, accompanied by Abe Bethers, the man who broke jail on the night of July 5. A pleasant smile beamed across the face of Sheriff Murdock when he landed his man in the jall cell Saturday after-

When Bethers made his escape he was placed in one of the upper rooms of the court house, the jail room proper not being in a fit condition for a prisoner on account of seepage water. The cell is in better shape, however, than it was, and Murdock is not afraid of his man trying to escape a second time. Sheriff Murdock is a generous-hearted officer, and always seeks the health and welfare of his prisoners, but he is not a man to be monkeyed with. While on his way home he kept Bethers hand-cuffed, which the fugitive did not like, and solicited the sheriff to let him travel free handed. He is a large built fellow, weighing over 200 nounas. The sheriff gave him to understand that he would have his hands adorned with the clippers until he got to Heber, and he must not make any breaks to escape, or he would drop him in the attempt. When Bethers made his escape he

taught by the church of Jesus Christ of Latter-day Saints, in strong and powerful terms, giving great emphasis his declarations.

to his declarations.

Other speakers during the conference were President W. W. Cluff, Counselors Alma Eldredge and Ward E. Pack, Bishop S. F. Atwood of Kamas and others, all of whom seemed much interested in their callings and spoke with

much earnestness. Today between the hours of 12 and 2 the baptism of some 18 to 20 children was performed by Elder W. H. Brand, under the direction of Bishop Wright.

The J. Dewing Company, 809 Market managed several mills in Weber and BUILDING AT MERCUR. Erected By McCornick and Dern-

tions in the church and was well known. His funeral will be held in the tabernacle at 10 a. m. next Wednesday. He leaves a family of three sons and five daughters, besides 46 grandchildren.

JUDGE KING'S LECTURE. It Was a Revelation to the People of

Cache Who Heard It. Logan, Aug. 1 .- Congressman W. H. King delivered a lecture on *Cuba and Kirg delivered a lecture on "Cuba and the Cubans" last evening, to a good-sized and representative audience. To most people here the lecture was a decided revelation, as a great many people thought the stories of Spanish oppression in Cuba greatly exaggerated by the newspapers, and were astonished to hear the verification of them from Judge King. The speaker deprecated the efforts of some papers and some people to belittle and discredit the Cubans, for whom he stated he possessed the warmest admiration. He denounced the idea of territorial asgrandizement, and warned his hearers dizement, and warned his hearers against becoming drunken with the specious intoxication of imperialism. The destiny of the country, he declared would be best carried out by the government remaining with its feet upor the glittering heights of the new world as the standard bearer of enlighten-ment and freedom for all the world, and ridiculed the idea that it is necessary for us to annex the world in order that our influence may be felt therein. The lecture was much appreciated and commented upon, following so closely as it did upon the radical utterances of Dr. J. M. Tanner upon the subject of imperialism and the war.
Conference was well attended yester.
day. Addresses were made by Apostles
Merrill, Lyman and Cowley, Judge W.
H. King and C. D. Fjeldsted.

CONFERENCE AT HEBER.

Heber, Aug. 1.-President Kingsbury and Professor Lyman, of the Utah university, have been devoting a week of heir time in visiting the different wards of this county, delivered inter-ceting addresses in the stake tabernacie here last evening on the subject of education. A large audience greeted the professors, and their talk was very nuch appreciated.

much appreciated.

Aposties John Henry Smith and Abraham Owen Woodruff and President S. B. Young were here Saturday and Sunday, attending the quarterly conference, which was largely attended by the people from the different parts of the county.

Hon John Sharp, fish and game commissioner, was feen on the streets of

HEBER FUGITIVE RECAPTURED Ann. Apostle Woodruff and wife, arrived in Heber Friday afternoon from Ashley valley, where they had been attending conference and other matters of interest to the church.

COURT AT ESCALANTE.

Escalante, July 30 .- A three

Judge McCarty Entered the Townsite of a Quarter Section.

special session of the Sixth district court has just adjourned here this evening, at which the people of this place have been permitted to prove up on their town lots, Judge McCarty having entered the townsite of 160 acres and procured patent therefor. One hundred and forty-three deeds were made to individuals at an expense of \$10 per dred and forty-three deeds were made to individuals, at an expense of \$10 per lot of one and one-fourth acres, including all taxes for-last year, in which was a tax of 2 per cent for the building of a school house. The balance of the ground not applied for was deeded to the trustees for the benefit of the schools. Four persons were naturalized in order to permit them to prove up. The people here are thankful to Judge McCarty for making the long overland trip and holding the special session of court here, thus avoiding the necessity of the whole population going to Panguitch, the county seat, a distance of 70 miles, over the worst mountainous roads in all the west.

FIRES ALONG THE RAILROADS. Rio Grande and Short Line Engines Threaten Davis County.

Kaysville, Aug. 1.-The Rio Grande Western engines are still setting fires all along the route from Kaysville north as far as Syracuse. Festerday the afternoon northbound train left a perfect streak of fire behind it, though, fortunately, not much damage was done. So far as reported John Flint was the heaviest loser, as 200 bushels of his oats were consumed. A hay field belonging to Joseph Hill was burned over but the extent of damage could not be learned. Other persons who had fires on their premises started by had fires on their premises started by the same train were: George Webster, John Weaver and John G. M. Barnes. The small damage done by these fires is due to the fact that farmers have, as a rule, harvested their crops and wheat stacks are protected from stubble fires by plowing a strip of land around each stack.

A fire was started last night in Bodliy's field by the Short Line train, but it was extinguished with little loss.

The Straw-Berry Assault Case.

She was a daughter of Philip and Sarah Bryant and was born March 2, 1831. She outlived her husband 31 days.

Gospel Tent There Too. Mercur, Aug. 1 .- A large tent, capable of seating 400 people, has been erected by the M. E. church, and yesterday Dr. Hiff held forth to a large

The foundation for the large building being built for McCornick, Dern & Co. is completed, and the masons are at work on the walls. Arrangements have been completed whereby a hall will be located on the second story, which, in size and general arrangements will have but few equals and no superiors in the state, for the meetings of the secret orders. It will be occupied by the various lodges in the camp, to which an addition will be made as soon as the hall is completed. This will be a Masonic lodge, and its success is assured from the start. being built for McCornick, Dern & Co.

WOOLF COUPLE DIVORCED. Other Court News From the Temple

City of the North. Logan, Aug. 1.-In the district court oday a decree of divorce was granted Isaac Woolf from his wife. Elizabeth C. Woolf. They were a Hyde Park couple, and Mrs. C. deserted her hus-band after being married but a few

band after being married but a few months. A continuance was granted in the matter of the estate of Lars Anhder, deceased.

Six boys were arrested last night for disturbing the peace and at their hearing today four of them pleaded not guilty and their trial was set for this evening at 6 o'clock.

Baseball Game at Provo.

Provo, Aug. 1.-Another baseball cembat took place on the square this morning, between the late victors, the clerks of the Bank block, and their vanquished foe, the clerks of the Taylor block. The bankers took the field, and Pletcher showed wonderful dexterity in curving the ball. Taylors made three tailles in the first liming, and bankers made four. It was a hard fought game. At the end of seven innings the tailles stood 19 to 14 in favor of the bankers.

Jim Thomas Was C. E. Gray.

Provo. Aug. 1.-The communications to Mrs. C. H. Gray of Orange, Mass., relative to the death of her unfortun-

Enoch Straw appeared before Justice Boyer and, upon the complaint being read to him, he entered a plea of "not guilty" to the charge of assault on the person of Rena Berry, and demanded an examination. The hearing has been set for Saturday, August 6 next, at 10

Springville, July 31.-Last night

The Old Maori Chief. Lehl, Aug. 1.-From a letter received frem F. W. Kirkham, it is learned that

the winters in New Zealand are very wet and cold, and that the old Maori chief who was a visitor to Utah a short time ago, is traveling the country over, giving good reports of Utah and the

Diphtheria at Provo.

Provo, Aug. 1.-The child of Mr. Ed

W:lkins, that has been sick with diphtheria for several days, is reported to

be improving. No new cases are reported, and strict. saritary regulations have kept the con-tagion from spreading.

Sick People at Lehi. Lehi, Aug. 1 .- Samuel Briggs, sr., J. P. Carter, Abel Garside, P. Lewis and

wife, all very aged people, are very sick, and some of them will hardly recover.

Discovered By a Woman. Another great discovery has been made, and that, too, by a lady in this country. 'Disease fastened its clutches upon her, and for seven years she withstood its severest tests, but her vital organs were undermined, and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles, has been obsolved ourself. night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz.' Thus writes W. C. Hamnick & Co., of Shelby, N. C. Trial bottles free at Z. C. M. I. drug store. Regular size 50c and \$1. Every bottle guar-

anteed.

THE EXCELLENCE OF SYRUP OF FIGS is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes

known to the California Fig Syrup

Co. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYBUP Co. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the Call-FORMIA FIG SYRUP Co. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of

the Company -CALIFORNIA FIG SYRUP CO.

SAN FRANCISCO, Cal. LOUISVILLE, KJ.
